After Matt Acres vacuumed out the fallen plaster underneath the sink.

The plaster where the wall is, it's coming out of it, still rotting away.

This was never fixed or brought up to city code.

Matt Acres never vacuumed the cabinet next to it otherwise you wouldn't see the fallen plaster on the shelf.

There is one cobweb, on the 2nd shelf, to prove I didn't use these shelves. It's gross.

Matt Acres could have easily opened the cabinet doors and vacuumed out the plaster as well as the cobweb.

This is the hallway.

The wall behind it, is the shower.

After I moved in while Louis & Sylvia Doshay lived there, there was a leak from the pipe within the wall and it leaked into unit #1, the prior tenant was before Katy Dollie, a guy, he moved back to Missouri & had a turtle for a pet.

I dampened the wall for these pictures to find the area on the wall where they cut a square piece out & then patched it up.

The plumber who fixed the leak told me, there is mold inside the walls.

Some where in this area.

The patio green enclosure, this is a violation of city codes, no parking.

There is no parking for tenants and Jim Russell, Doreen's husband, yelled at me one day when I parked in the driveway.

He said if I ever parked there again, he would tow my car. The main house was never rented and vacant. There was no parking on the street, so I parked there, like other tenants besides me.

It's not against the law to park in a driveway.

He said he didn't care and that I was illegally parked there.

That was a lie, he was just mad cause he had to park behind me and had to move his car as I was leaving.

The locked door is to the laundry that you have to pay \$25.00 a month to use. That's not including the coin operated washer and dryer.

I don't think Doreen Doshay Russell got that approved by the city either. This was originally part of the main house. There is alot of illegal construction on this property and no permits were gotten thru the city.

September 29, 2013

The day I moved out.

outside as I was leaving

The swimming pool.

Louis Doshay before he got taken away by Doreen and her family to Washington, told me the story about the swimming pool.

He had a fight with the city and they wouldn't give him a permit for it, so he destroyed it by putting plants into it. I'm sure now in the year 2013, it's got tons of bugs underneath.

I'm sure Louis sprayed and kept it from over growing.

The plants were not this big when I moved in and people used to come by every week to spray the outside of the building, in 2009.

Since Doreen has taken over from her father, nobody has come by to spray outside, that's at least 3 years.

Hence the cockroach infestation of my unit and probably the entire building.

September 29, 2013

The day I moved out.

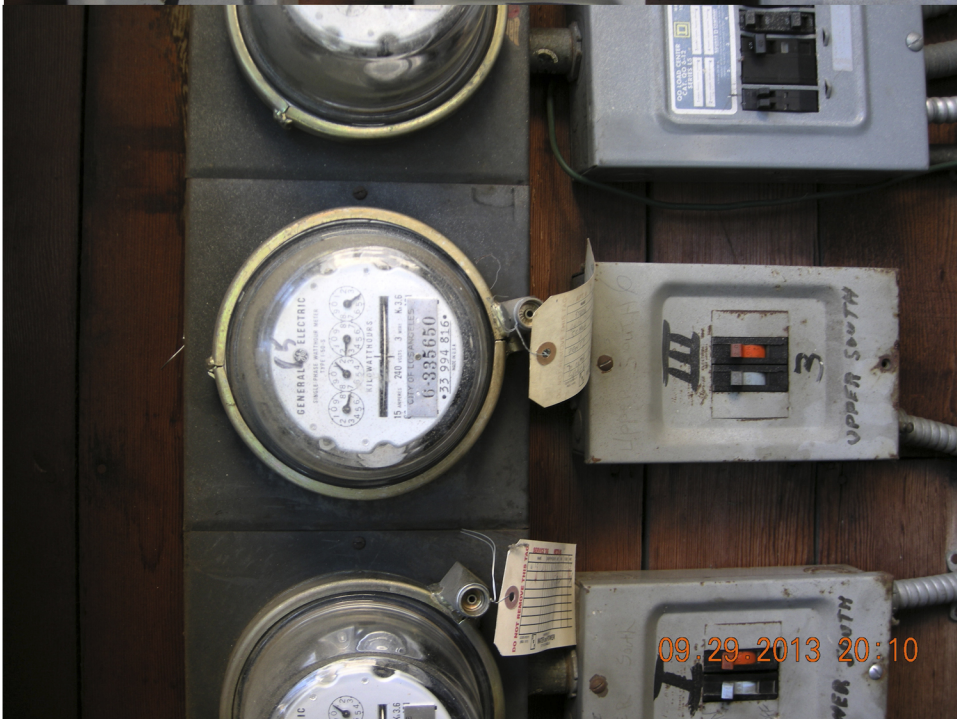

outside as I was leaving

The circuit breakers and fuse box behind the building.

Sometimes when it rained, the electricity would go out and we the tenants would have to go down to handle the fuse.

There was no onsite manager. Nobody lived there to care for the property but us, tenants.

Karen Freemon did not live on site and Doreen Doshay Russell is a resident of the state of Washington.

September 29, 2013

The day I moved out.

outside as I was leaving

This is behind units #1 & #2, those units have backdoors.

The mess you see, is from the remodel, they threw everything in the back. It's not only messy but dangerous as well.

September 29, 2013

The day I moved out.

outside as I was leaving

I saw this while I was leaving, I don't know what it is, but it looked hazard like, so I took a picture of it. This is right below unit #2 and the tenant is disabled.

So if like an animal gets in there, it could be a big problem. The area has possums & raccoons and both animals have been on this property more then once.

This is unit #3 from the kitchen window. The window that is open is unit #3, the closed is unit #4

The carpet, vacuumed and cleaned

The spots in the carpet are from the pipes, the plumbing, the leaks Doreen Doshay Russell neglected for 4 years.

The kitchen sink is next to it, which was leaking underneath, Doreen Doshay Russell has been getting estimates from plumbers for 4 years, she's known.

The wall on the east side, they painted and stopped at the blinds on 9/16/2013 the day before 2nd eviction court 9/17/2013.

These are the conditions I had to endure due to Doreen Doshay Russell's neglect of the property and hatred of me for more than one reason.

Cleaned, this is how I moved in. Same paint, same carpet etc etc.

First picture, the room area from the kitchen.

2nd picture of the room area with the door closed.

3rd picture of the room taken by the front door with the door open.

It's a single unit. I think 200 sq ft or less, i don't really know, just a guess.

This is the condition I left this unit it.

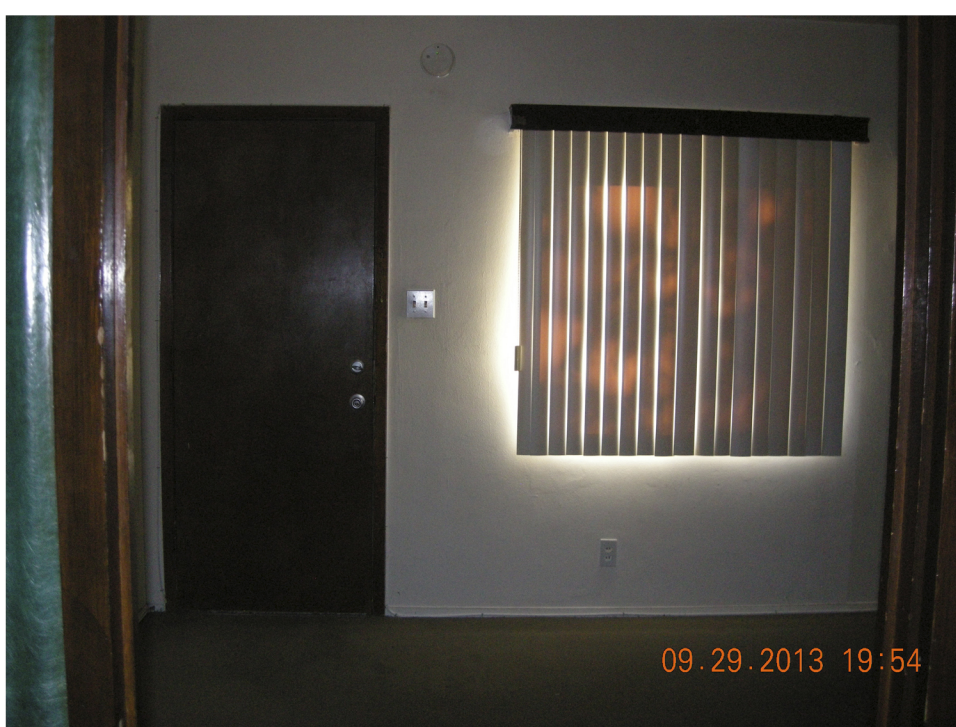

Light fixtures were left on top of the built in dresser/closet, hallway area.

The wall heater, never worked the gas company never turned on the pilot since I moved in, in 2009.

The day I moved out.

With all the inspections done by Doreen Doshay Russell, she never fixed what needed to be fixed but instead used it as tool to harrass and abuse me.

These are the conditions I had to endure due to Doreen Doshay Russell's neglect of the property and hatred of me for more then one reason.

1st picture, the room area with wall heater. The vent above the wall heater, I have no idea where that goes or' what it does.

2nd picture, same thing.

3rd picture is a close up of the closet area
